APP-101-78 Application for Limited Investor Fund Page 22 of 22 5 REUSING PREVIOUS SUBMISSIONS What is XBRL ? XBRL (eXtensible Business Reporting Language), is a standards-based way to communicate and exchange business information between business systems. Data can be used from a previous reporting period or submission instead of starting from fresh. You must have entered data into at least one form using the online portal and have gone through a successfully validated submission. Example: Rapidly re-using the Anti-Money Laundering officers application for (MLO-154-99) Process: 1. Select Submitted Requests to view previously submitted forms and select the one that contains the data. 2. Click on Download: XBRL Instance in the top right corner and save the file to your PC or network drive. 3. Close the form. 4. Select New Request and select the required new/empty form (e.g. MLO-154-99). 5. Click on Upload: XBRL Instance in the top right corner. 6. Click on Browse... and navigate to the file that was saved in step 2 above (usually in the "Downloads" folder). 7. Click Upload . 8. The system will then copy each data point from the XBRL file into the fields of the current form. 9. The system displays the message Import Successful to indicate that the data was all copied OK. 10. The user can then review and make changes to the data. 11. Proceed as usual through the rest of the validation process. These instructions can be used for New Application forms, Change Request forms and Financial Returns.
