

Cayman Monetary Regulatory Authority International

At the forefront of financial regulation, the Cayman Monetary Regulatory Authority International (CMRAI) is dedicated to upholding the highest standards of financial oversight and compliance. Our mission is to safeguard the stability and integrity of the global financial system by ensuring that financial services operate within a framework of transparency, accountability, and excellence.

As a trusted partner to financial institutions worldwide, CMRAI provides rigorous supervision, innovative solutions, and strategic guidance to foster a secure and thriving financial environment. With decades of experience and a commitment to global standards, we stand as a pillar of trust and security in an ever-evolving financial landscape.

With a legacy of excellence in financial oversight, the Cayman Monetary Regulatory Authority International (CMRAI) is a beacon of trust in the international financial community. Our role extends beyond regulation; we are innovators, collaborators, and protectors of the global financial ecosystem. By fostering compliance, promoting best practices, and embracing technological advancements, CMRAI ensures that financial services remain resilient and adaptable in a dynamic global market.

Our comprehensive approach to regulation encompasses a deep understanding of financial risks and a proactive stance on emerging challenges. We are committed to empowering financial institutions with the tools and guidance necessary to navigate complex regulatory landscapes, thereby contributing to global economic stability and growth.

1 IFRS 17-COMPLIANT REPORTING FORMS Completion guide for the IFRS 17 compliant REEFS Primary schedules Only licensees that prepare their financial statements under IFRS are required to complete the IFRS 17 compliant REEFS Primary schedules, i.e., IFRS Balance Sheet & IFRS Income Statement, in addition to the standard primary schedules. The standard primary schedules remain mandatory for ALL licensees to complete. Detailed instructions are provided to assist users (insurer licensees) on how to complete the IFRS 17-compliant reporting forms; they are not provided for every form or field in the IFRS 17 Regulatory Enhanced Electronic Forms Submission (REEFS). All references to "forms" refer to Primary forms within the IFRS 17-compliant reporting template.

Any reference to "section" refers to a part of these instructions. All monetary values are in US dollars and cents; full amounts should be reported.

1.1 TABLE OF SCHEDULES: PRIMARY FORMS IFRS 17 Statement of financial position (Balance Sheet) IFRS 17 Statement of profit and loss and other comprehensive income (Income Statement) 1.2 DEFINITION OF TECHNICAL TERMS Component Account Description PVFC Present value of future cash flows (Probability weighted expected future cash flows) Expected value (explicit, unbiased, probability weighted estimate) of the future cash flows that will arise as the insurer fulfils the insurance contract. RA Risk adjustment for non- financial risk Reflects compensation that the entity requires for uncertainty inherent in the cash flows. Quantifies the value difference between certain and uncertain liability. CSM Contractual Service Margin Profit expected at the start of the contract (Unearned profit recognised over coverage period). The CSM on initial recognition for a group of reinsurance contracts represents a net cost or net gain from purchasing reinsurance. For reinsurance contracts held, CSM can be positive or negative. LC Loss Component Amount of loss recognised when the expected value of future cash flows results in a net outflow (only used when there are onerous contracts). Onerosity Onerous Contracts A group of contracts that on initial recognition, results in a loss being recognised immediately in the income statement for the entire net cash outflow. Discount rates Discounting Two methods used to discount future cash flows using either a top-down or bottom-up approach for discount rates to reflect the characteristics of the liabilities in terms of timing, currency, and liquidity. GMM General Measurement Method Default measurement model for all insurance contracts. Based on discounted future cash flows (in and out).

Page | 5 VFA Variable Fee Approach A variation of the GMM modified to deal with contracts with discretionary participation features where payments to policyholders are linked to underlying items like assets, e.g., Unit-linked / segregated fund contracts, participating contracts, certain profit-sharing contracts. Cannot be applied to reinsurance held contracts. PAA Premium Allocation Approach A simplified

measurement model for short term contracts or contracts with little variability. Applied on short term non-life contracts. LRC Liability for Remaining Coverage GMM: Present value of future cash flows, CSM (Locked in) and risk adjustment. VFA: Present value of future cash flows, CSM (current) and risk adjustment. PAA: Based on premiums received and acquisition expenses if deferred. LIC Liability for Incurred Claims Present value of future cash flows and risk adjustment current assumptions for all measurement models. ARC Asset for Remaining Coverage Similar to Liability for Remaining Coverage for the ceded business (Reinsurance Held). AIC Asset for Incurred Claims Similar to Liability for Incurred Claims for the ceded business (Reinsurance Held). General business Means insurance business other than long term business Long term business Means insurance business involving the making of contracts of insurance a) On human life or contracts to pay annuities on human life, including linked policies, but excluding contracts for credit life insurance and term life insurance other than convertible and renewable term life contracts; b) against risks of the persons insured - (i) sustaining injury as the result of an accident or of an accident of a specified class; (ii) dying as the result of an accident or of an accident of a specified class; or (iii) becoming incapacitated in consequence of disease or diseases of a specified class, being contracts that are expressed to be in effect for a period of not less than five years or without limit of time and either not expressed to be terminable by the insurer before the expiration of five years from the taking effect thereof or expressed to be so terminable before the expiration of that period only in special circumstances therein mentioned; c) whether by bonds, endowment certificates or otherwise whereby in return for one or more premiums paid to the insurer a sum or series of sums is to become payable to the person insured in the future, not being contracts falling within paragraph (a) or (b); or; d) that are capital redemption contracts.
